106TH CONGRESS 2D SESSION

H. R. 4664

To establish the elderly housing plus health support demonstration program to modernize public housing for elderly and disabled persons.

IN THE HOUSE OF REPRESENTATIVES

June 14, 2000

Mr. Meeks of New York introduced the following bill; which was referred to the Committee on Banking and Financial Services

A BILL

To establish the elderly housing plus health support demonstration program to modernize public housing for elderly and disabled persons.

- 1 Be it enacted by the Senate and House of Representa-
- 2 tives of the United States of America in Congress assembled,
- 3 SECTION 1. SHORT TITLE.
- 4 This Act may be cited as the "Elderly Housing Plus
- 5 Health Support Demonstration Act".
- 6 SEC. 2. FINDINGS AND PURPOSES.
- 7 (a) FINDINGS.—The Congress finds that—
- 8 (1) there are at least 34,100,000 Americans
- 9 who are 65 years and older, and persons who are 85

- years of age or older (often called the oldest old)
 comprise almost one-quarter of that population;
 - (2) the Bureau of the Census of the Department of Commerce estimates that, by 2030, the elderly population will double to 70,000,000 persons;
 - (3) according to the Department of Housing and Urban Development report "Housing Our Elders—A Report Card on the Housing Conditions and Needs of Older Americans", the largest and fastest growing segments of the older population include many people who have historically been vulnerable economically and in the housing market—women, minorities, and the oldest old;
 - (4) many elderly persons are at significant risk with respect to the availability, stability, and accessibility of affordable housing, as evidenced by a recent study which indicates that 1,700,000 low-income senior households spend more than one-half of their incomes on housing;
 - (5) over 1,000,000 of the approximately 3,700,000 Americans who are 62 years of age or older and are living in federally assisted housing reside in public housing, thereby making it the largest Federal housing program for senior citizens;

- (6) the elderly population residing in public housing is older, poorer, frailer, and more racially diverse than the elderly population residing in other assisted housing;
 - (7) two-thirds of the public housing developments for the elderly, including those that also serve the disabled, were constructed before 1970 and are in dire need of major rehabilitation, such as rehabilitation to provide new roofs, energy-efficient heating, cooling, and utility systems, and up-to-date safety features, such as sprinklers, fire alarms, and security systems;
 - (8) many of the dwelling units in public housing developments for elderly and disabled persons are undersized, are inaccessible to residents with physical limitations, do not comply with the requirements under the Americans with Disabilities Act of 1990, or lack railings, grab bars, emergency call buttons, and wheel chair accessible ramps;
 - (9) a recent study for the Department of Housing and Urban Development found that the cost of the basic modernization needs for public housing for elderly and disabled persons exceeds \$5,700,000,000;

- (10) a growing number of elderly and disabled persons face unnecessary institutionalization because of the absence of appropriate supportive services and assisted living facilities in their residences;
 - (11) for many elderly and disabled persons, independent living in a non-institutionalization setting is a preferable housing alternative to costly institutionalization, and would allow public monies to be more effectively used to provide necessary services for such persons;
 - (12) congregate housing and supportive services coordinated by service coordinators is a proven and cost-effective means of enabling elderly and disabled persons to remain in place with dignity and independence; and
 - (13) the effective provision of congregate services and assisted living in public housing developments often requires the redesign of units and buildings to accommodate independent living.
 - (b) Purposes.—The purposes of this Act are—
 - (1) to establish a program to demonstrate the effectiveness of making competitive grants to provide state-of-the-art health-supportive housing with assisted living opportunities for elderly and disabled persons;

- 1 (2) to provide funding to enhance, make safe 2 and accessible, and extend the useful life of public 3 housing developments for the elderly and disabled 4 and to increase their accessibility to supportive serv-5 ices;
 - (3) to provide elderly and disabled public housing residents a readily available choice in living arrangements by utilizing the services of service coordinators and providing a continuum of care that allows such residents to age in place;
 - (4) to incorporate congregate housing service programs more fully into public housing operations; and
- 14 (5) to accomplish such purposes and provide 15 such funding under existing provisions of law that 16 currently authorize all activities to be conducted 17 under the demonstration program.

18 SEC. 3. AUTHORITY FOR ELDERLY HOUSING PLUS HEALTH

19 SUPPORT DEMONSTRATION PROGRAM.

The Secretary of Housing and Urban Development (in this Act referred to as the "Secretary") shall carry out an elderly housing plus health support demonstration program under this Act to demonstrate the effectiveness of providing coordinated funding for selected public housing projects for elderly and disabled families to provide
